SUMMARY

Experienced in building modern web applications using React, Html, Css, JavaScript and Tailwind CSS. Passionate about creating efficient, and user-friendly solutions that make a real impact. Always excited to take on new challenges and contribute to meaningful projects.

SKILLS

- **Front-end**: React.js, Tailwind CSS, HTML, CSS, JavaScript
- **Database**: MySQL
- **Control**: Git, GitHub
- **Programming Languages** : JAVA , Python , C

PROJECT

Sikhley: Course Website   **Live Demo**

- Built a modern course website using React, Next.js, TypeScript, and Tailwind CSS, focusing on a user-friendly interface.
- Where teachers can create, manage, and sell their courses, while students can easily browse and purchase them.

Study Share   **Live Demo**

- Created an interactive website that allows users to easily access and share educational notes, enhancing collaborative learning and providing a seamless experience for students.
- Designed and deployed the website using modern web technologies , ensuring fast load times and responsive design across various devices and platforms.

Moviez Search   **Live Demo**

- Movie Discovery Platform: Built a responsive movie search app that lets users explore movie details, including ratings, plot, and streaming options using the OMDB API.
- Dynamic Search & Suggestions: Implemented real-time search suggestions and data fetching for an interactive, seamless movie browsing experience.
